WATER WORKS: Two local classrooms were crowned winners in the 2011 Rain Barrel of Fun program through waterSmart, a conservation education campaign supported by Cobb County-Marietta Water Authority and Cobb County Water System. **Above:** The Junior Water Warriors Award went to Jennie Dang's third-grade students from Murdock Elementary for demonstrating the greatest effort in teaching others about water conservation. Ms. Dang's class created the campaign 'Murdock Makes a Change' and promoted water conservation messages through songs, skits and persuasive papers.

Left: Linda Barnwell's second-grade class from Addison Elementary was awarded with the Supreme Rain Barrel Award. The barrel depicted the stages of a plant's life and how water is an integral part of the life cycle.
